

1.6G1. NUMBERING. |

PCC practice: In determining if there is a new sequence of numbering not accompanied by wording such as "new series," consult the national authority file for a series authority record for the series. If there is a series authority record for the series and it shows the same publisher and/or issuing body, assume that there is a new sequence of numbering; supply information in the numbering for the series in the bibliographic record and update the series authority record numbering information. If there is a different publisher and/or issuing body and there are no other indications (publisher's listing of earlier volumes in the series, specific statement from publisher, etc.) that the series has a new sequence of numbering, assume that the series is new. Do not change any existing bibliographic and series authority records created before Dec. 1, 2002. |
